ACRYLIC CO POLYMER SOIL STABILIZER

3E

**ENTERPRISE
EDGE OVER CONVENTIONAL METHODS
ENDLESS POSSIBILITIES**

ENTERPRISE

K31, The Best Soil Stabilizer In The World For Road Construction. The Best & Most Innovative Solution For Pollution Control And Erosion Control. Visit www.k31.org For More Details.

EDGE OVER CONVENTIONAL METHODS

- Easy To Apply
- No Heating Required
- Cost Effective
- Environment Friendly
- Faster Than Conventional Technologies
- Works With In-situ Soils
- No Need To Import Soils Or Base Of Any Kind
- Non Hazardous And Non Corrosive
- Does Not Leach
- Reduce Water Penetration
- Performs Under Freeze Thaw Condition
- Increase Flexibility And Tensile Strength
- Increase Load Bearing Strength
- Lab Certified Result
- Increase Cbr Strength To Pavement/concrete Level

ENDLESS POSSIBILITIES

- Roads
- Sub Base Stabilization
- Non-traffic Dust Control
- Mine Haul Roads And Tailings
- Parking Lots
- Solar Sites
- Runways And Helipads
- Military Roads
- Erosion Control, Guard Walls And Sediment Control
- Landfill Cover
- Golf Bunker Lining
- Brick Building
- Bmx Tracks
